SITL unveils the winners of the 20th Logistics Innovation Awards

The winners of the seven categories of the 20th Logistics Innovation Awards presented by SITL 2020 are: TK'Blue Agency, Scallog, La Poste, Sightness, Isovation, Securitas France and Coldway Technologies. Another 11 entrants were shortlisted. The winning solutions revolve around digital acceleration, process automation and the ecological transition, which are key challenges for modern supply chains. The jury was made up of members of our Marco Polo Club (Supply Chain, Logistics and Procurement Executives), and once again this year the 32 entries and 18 start-ups gave them no easy task.

"As everyone knows, SITL 2020 could not go ahead, but we still wanted to recognise the winners and runners- up for the 20th Innovation Awards. These companies have proven their resilience through this unprecedented and challenging time, but this year they showed even more creativity and agility to offer their customers the best in innovative services. SITL is very proud to award the most innovative companies on the market for the 20th year running, and we will be putting even more focus on innovation in upcoming editions," declared Thomas Desplanques, Director of the Transport & Logistics Division."

The winners are:

Winner: TK'Blue Agency

GCI is a comprehensive solution for measuring, reducing and offsetting greenhouse gas emissions to support companies in their commitment to the 17 Sustainable Development Goals.

Runner-up: Ownest

After working on the transfer of liability, OWNEST is now focusing its expertise on transport documents to make eCMR the key tool for the logistics of the future.

Runner-up: Sterne Group

U-PRINT is an easy-to-access web application which helps users streamline and speed up mail distribution.

Winner: Scallog

Flexytote, robot multi-totes transfer solution for your warehouse that's flexible and safe!

Runner-up: Dock Innovation

We automate stocktaking and volume calculation in outdoor storage areas and logistics facilities with the help of computer vision and machine learning.

Runner-up: MiR Robots

MiR1000, a powerful and robust robot designed to automate the transportation of pallets and other heavy loads of up to 1000 kg.

Winner: La Poste

Store closer, deliver quicker. Urban logistics to meet the need for fast deliveries.

Winner: Sightness

Sightness is the SaaS solution for detecting transport anomalies using artificial intelligence.

Runner-up: ProGlove

ProGlove develops smart gloves with integrated miniaturised barcode scanners, putting people at the heart of Industry 4.0.

Runner-up: Bolloré Transport & Logistics

Real-time international shipment and goods integrity tracking using IoT sensors and centralised alert management.

Winner: Isovation

An autonomous isothermal ¼ ULD that can be combined and reused for air transport of temperature-sensitive products

Runner-up: PAKi Logistics

Drop&Drive lets carriers and logistics providers drop off exchangeable pallets across the network of PA points.

Winner: Securitas France

Mobile Cam 3D is a mobile CCTV service using AI and LIDAR technologies. An autonomous agile solution for securing sensitive sites.

Runner-up: STI – SALVO

Protect your forklift drivers by ensuring trailers don't move off unexpectedly using a simple code key system.

Runner-up: PROTECT SmartWater France

PROTECT SmartWater coded fog generator protects your goods and marks burglars as a deterrent.

Winner: Coldway Technologies

Autonomous refrigeration systems for temperature-controlled units.

Runner-up: CHEREAU

CHEREAU believes in hydrogen as a clean energy source and is industrialising it through the CHEREAU Hydrogen Power H2 range.

Runner-up: Koovea

K-TAG slim is a smart tag for monitoring the temperature of biotechnology components as they are transported around the world.

A jury of 10 top decision-makers from industry and distribution:

- Eric Ballot, Professor at ECOLE DES MINES DE PARIS
- Xavier Derycke, Supply Chain Director, REXEL Group
- Anne Grosset, Logistics Director, HAPPY CHIC
- Yves Moine, Supply Chain Director, PICARD SURGELES
- Gabriel Schumacher, Logistics Director, BSH Electroménager
- Hervé Leygnac, Logistics Director, COOPER
- Dominique Luzuy, Regional General Manager, ERMEWA
- Bertrand Regnauld, Supply Chain Director, GROUPEMENT DES MOUSQUETAIRES
- Olivier Theulle, Operations Director, FNAC DARTY
- Julien Morel, Global Head of Supply Chain, RIMOWA

Congratulations again to 2020's seven winners, and our thanks to the jury and our faithful partners, SprintProject and Paris & Co. See you at the next edition of SITL for the 21st Innovation Awards and 6th Start-up Contest!
