

TRANSPORTATION & LOGISTICS SERVICES

- 3 PL / 4 PL / 5PL
- Chartering, transport of batches, monitoring and scheduling
- Co-manufacturing, co-packing
- Last mile, door-to-door delivery
- Customs, Administrative formalities
- Federations, associations, professional organisations
- Stock management and optimisation
- Storage and warehousing of hazardous materials
- Storage, temperature-controlled storage
- Temperature-controlled transport services
- Vehicle rental, management, servicing and maintenance
- Reverse logistics
- Storage, warehousing of special products (dry, fragile, high added value)
- E-commerce logistics (B2B, B2C)
- Express / Urgent transport
- Air transport
- Combined transport (rail-road, river-road, sea-road)
- Bulk transport
- Tanker transport
- Specialised transport
- Rail transport
- Transport of dangerous goods
- Sea/river transport
- Road transport

INTRALOGISTICS, ROBOTICS & AUTOMATION

- Straight trucks, forklifts, self-propelled trucks, telescopic handlers and other industrial trucks
- Conveyors, sorting machines
- Lifting equipment (crane, tailgate...)
- Economical handling equipment that reduces RSI (musculoskeletal disorders)
- Warehouse management (WMS)
- 3D printing
- Autonomous mobile robots (AGV, AIV, AMR)
- Handling equipment : Pallet trucks / Stackers / Hand trucks trolleys / Roll-containers / Hand trucks
- Construction hoists / Goods lifts / Levelling devices / Personnel lifts
- Shelving
- Automated vehicle loading and unloading systems
- Automated storage systems
- Rental, management, servicing and maintenance of vehicles handling equipment
- Control systems for mechanisation, robotisation and handling
- Personal protective equipment (PPE) and staff safety
- Order preparation systems, picking, voice picking

PACKAGING & PALLET

- Reconditioning
- Consumables and green materials for packaging and packaging
- Processing and packaging machinery
- Marking/coding machines
- Raw materials, consumables and film
- Pallets, bins, crates and containers
- Packaging services
- Packaging and order-picking technologies
- Storage and retrieval machines / Palletisers and Storage and retrieval machines / Palletisers and depalletisers / Pallet stackers and dispensers

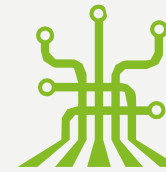

TECHNOLOGIES IOT & INFORMATION SYSTEM

- RFID branches, tags, chips, microprocessors
- E-services, webtracking
- Technological solutions and systems for the cold chain, Humidity sensors
- Cartography and Navigation Systems (GPS, GLONASS, GALILEO)
- Communication mobile (GSM, GPRS, 3G, UMTS, CDMA, DECT)
- Deep Learning/ Artificial Intelligence / IoT
- Electronic Data Interchange (EDI)
- Transport Management System (TMS) and distribution chain
- Printers, labels, barcodes, marking, readers and scanner
- IT: Software publishers, Systems integrator, Solutions integrator
- Software for processing customs operations
- Sales forecasting and planning software (SCP/APS)
- ERP, CAPM, Supply Chain software
- Software and solutions for e-commerce / e-business
- RFID, Auto ID, EDC (Automatic Data Capture) and Systems data collection and transmission systems (Wi-Fi, Bluetooth, infrared...)
- Collaborative solutions, Blockchain
- Electronic toll solutions
- Supply chain optimisation solutions
- Handheld terminals, Embedded systems
- Safety equipment and road markings on logistics sites
- Biometrics, Surveillance / Video surveillance, Alarm systems
- Cybersecurity, security technologies or systems for transport
- Fire protection solutions
- Protection systems (anti-theft labels, anti-theft antennas)

ALTERNATIVE ENERGIES

- Low-emission fuels: LPG, CNG, LNG, Hydrogen
- Renewable energies: biofuels, agrofuels
- Electric motors
- Charging stations and network management
- Controlling consumption for storage : photovoltaics, LED lighting, insulation
- Specific equipment for gas (distribution pumps)

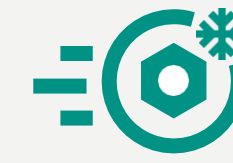

INFRASTRUCTURES & TERRITORIES

- Government agencies and national or international or international
- Ports, airports, tunnels, bridges, motorways
- Promotion and/or development of logistics warehouses
- Regional promotion (communities, development development agencies, chambers of commerce, etc.)

REAL ESTATE

- Site planning and development
- Construction of logistics sites, project management, Turnkey logistics facilities
- Construction and eco-construction, recycling
- Land investment and financing
- Logistics warehouse rental

TRANSPORT EQUIPMENT

- Driver safety equipment (brakes, airbags, securing, reversing cameras)
- Vehicle manufacturers, Bodywork
- Vehicle loading and unloading equipment
- Temperature-controlled transport equipment : containers and swap bodies/isothermal containers
- Tyres, consumables and accessories
- Trailers and semi-trailers
- Autonomous vehicles

CONSULTING, CAREER & FUNDING

- Risk prevention and management
- Consulting (real estate, logistics, supply chain management)
- Environmental audits and diagnostics
- Banking and insurance
- Recruitment, talent management
- Training, Studies
- Eco-driving training
- Engineering, consulting, energy efficiency, certification
